

ASTON VILLA

To Whom It May Concern

4th September 2003.

Re: Ben Newman.

I first met Ben last May when he came to Nottingham Forest Football Club to complete an internship placement from University.

I found Ben to be an enthusiastic likeable person. He had no trouble integrating with the staff and players, and soon became valued and highly respected by the physiotherapists and the fitness trainers at the club.

Ben is extremely reliable, a conscientious worker, and I have no doubts about Ben becoming a first class sports scientist/physiotherapist wherever he is employed.

I would have no hesitation in recommending Ben for any position in the fitness/ physiotherapy field; he would be a valuable acquisition for any sporting organisation.

I moved to Aston Villa Football Club during the summer and should a suitable position arise at this club for Ben, I would recommend him without hesitation.
